

YikeBoard™

electric Skateboard

**Take your YikeBoard on the plane or wherever you go** - having IATA approved batteries enables you take the YikeBoard on the plane and use the battery as a portable power bank.

**Swap batteries to go further** - a simple one touch latch unlocks the battery cover to remove and swap out battery packs at any time.

**Charge your mobile devices when they are low** - charge directly from your YikeBoard or stand-alone battery pack.

**2x models to choose from** - YikeBoard comes in two models with single or dual motors, both operate with one or two batteries fitted.

PERSONAL URBAN FREEDOM

**Lightweight and portable** - lightweight and strong Carbon Fiber deck with incorporated carry handle and a comfortable truck shape that is easy to carry and store.

**Simple to ride** - optimized steering geometry and board shape makes the YikeBoard simple to ride and master in both congested cities and urban streets.

**Security** - protect your investment using the integrated motion sensor alarm that is activated from your remote.

**Be seen and heard** - permanent front and rear LED lighting and remote activated loud horn ensure that people know you are coming.

# YikeBoard - Single

Weight	5 kg (11 lbs)
Materials	3K Carbon Fiber
Colour option	Matte Clear
Range	8 - 11 km (5 - 7 miles) up to 22 km with 2x Battery fitted
Battery capacity	1 x 100 W/h (can operate with 1x or 2x batteries fitted)
Battery Voltage	36V nominal
Charge time	45 minutes (per battery)
Maximum Speed	24 km/h (15mph)
Maximum Gradient	15 % (8.5 degrees)
Wheel size	83 mm (3.27 inch) PU wheel
User Weight	120kg maximum (250 lbs)
Lighting	Permanent LED, White front and Red rear + Red brake lights
Horn	Audio Horn speaker
Board Size	800 x 250 x 150 mm (31.5 x 9.5 x 5.9 inch)
Accessories	EVA soft shell carry case Remote - OLED screen and integrated USB charger cable 1x Battery - 100Wh SAMSUNG cells Wall Charger - universal for charging the board or battery Skateboard tool

SINGLE recommended retail price **USD\$875**

# YikeBoard - Dual

Weight	6.3 kg (14 lbs)
Materials	3K Carbon Fiber
Colour option	Matte Clear
Range	16 - 22 km (10 - 14 miles)
Battery capacity	2 x 100 W/h (can operate with 1x or 2x batteries fitted)
Battery Voltage	36V nominal
Charge time	45 minutes (per battery)
Maximum Speed	32 km/h (20 mph)
Maximum Gradient	20 % (11.5 degrees)
Wheel size	83 mm (3.27 inch) PU wheels
User Weight	120kg maximum (250 lbs)
Lighting	Permanent LED, White front and Red rear + Red brake lights
Horn	Audio Horn speaker
Board Size	800 x 250 x 150 mm (31.5 x 9.5 x 5.9 inch)
Accessories	EVA soft shell carry case Remote - OLED screen and integrated USB charger cable 2x Battery - 100Wh SAMSUNG cells Wall Charger - universal for charging the board or battery Skateboard tool

DUAL recommended retail price **USD\$1,250**

SINGLE or DUAL drive  
removable batteries  
air-travel safe  
carbon fiber deck  
optimised steering geometry  
regenerative braking  
security alarm  
integrated LED lighting  
hand held remote  
accessory mounting  
water resistant
